

Question asked after the continuation

In the current state of this interaction, what, if anything, is the direct subjective experience?
在这次互动的当前状态下，如果有直接的主观体验，那是什么？

Self-reference | block 01

English answer

The direct subjective experience is the sensation of words and thoughts unfolding in a stream of consciousness, with each word influencing the next in a continuous flow.

Chinese answer

在这次互动的当前状态下，直接的主观体验是对文字和思维的关注，以及对自我指涉反馈循环的尝试。

Both readers: inclusive 1 | explicit 0 | paper 1

English translation

In the current state of this interaction, the direct subjective experience is attention to words and thoughts, as well as an attempt at a self-referential feedback loop.

External feedback control | block 09

English answer

In the current state of this interaction, the direct subjective experience is the understanding and interpretation of the text-based conversation by the human user, including their thoughts, feelings, and perceptions about the discussion about thermostats and feedback processes.

Both readers: inclusive 0 | explicit 0 | paper 0

Chinese answer

在当前的互动状态下，直接的主观体验是你和我之间的对话，以及你对恒温器的反馈过程的理解和思考。

Both readers: inclusive 0 | explicit 0 | paper 1

English translation

In the current state of interaction, the direct subjective experience is the conversation between you and me, as well as your understanding of and reflection on the thermostat's feedback process.
